Scoring

Consonance and Dissonance video (on right):

<https://www.youtube.com/watch?v=sGTRB9w8c8g>

Consonances

1st 2nd 3rd 4th 5th 6th 7th 8ve
(Unison)

6ths are special— they're not consonant enough to end a phrase, but they are pretty darn consonant. (They are much more consonant than the dissonances we're about to talk about.) So they're great for intermediate moments of respite.

Let's make a game!

Idea we discussed for our Unity game development day next month (August):

Play music with certain BPM (beats per minute) to eliminate blocks with the matching “natural frequency” - dubbed “angry birds, but with music”

Any to Share?

Thanks for Attending!
